component placer

Break Your Production Barrier Without Breaking Your Budget!

The Samsung CP40C offers the best price/performance benefits in its class, with a placement rate of up to 13,800 CPH. The Samsung CP40CV combines high-speed production capacity with fine pitch QFP, BGA and μ -BGA inspection and placement capabilities. The CP40C and CP40CV are equipped with a Windows-based GUI operating system, 3-stage conveyor for

optimum PCB transport time and non-contact touchless component positioning systems. Comprehensive off-line programming software, full installation and factory training and one year parts and labor warranty, together with unlimited access to Samsung's 24-hour toll-free service help line are part of the standard package.

Put our experience to work for you!™
