

WELCOME

Metal Etching Technology (M.E.T.) is one of the original stencil manufacturers, supplying stencils for Surface Mount Assembly operations since 1985.

M.E.T. offers a combination of experience, technology, and expertise. *Initially* we will be your stencil consultant. *Ultimately* we will build a partnership through information sharing.

OUR PLEDGE

WE GUARANTEE OUR QUALITY,
SERVICE, AND DELIVERY.

M.E.T. is proud to be a member
of these and other industry
organizations.

Let our Knowledgeable and Qualified Customer Service Personnel Work for You!

Regardless of the technology employed, you will always receive the superior customer service assistance that has become our trademark. Since all we make are stencils, our Customer Service Associates are more than just "order takers". Using our plot review system, they will point out areas of concern and recommend solutions before the stencil is sent to production. Then, once you receive the finished product, you can be assured that it will perform to your expectations.
